FRIDAY, MAY 26, 1916

It is likely that two weeks from this time the name of the republican nominee for president will be known. Just now it looks like either Roosevelt or Hughes.

Former Congressman John J. Whitaker will not be a candidate for the democratic nomination for congress in the sixteenth district. He appeared at the office of the Stark county election board in Canton last Saturday and took out a blank declaration of the candidacy of William L. Thom, who was Mr. Whitaker's secretary during his tenure of office. Mr. Thom is a talented young man and would make an ideal congressman. At present he is attending Georgetown law school in Washington and doing special newspaper work.

In an editorial urging the re-election of United States Senator Allee Pomerene, the Canton News says: "Today there can be no doubt in the minds of the voters of Ohio whether Allee Pomerene is the kind of a man they need in the senate. He has shown that his heart is in the right place, that his brain is of the right caliber and that his hands are willing. In other words he has demonstrated as conclusively as any United States Senator ever demonstrated that his first term in the senate was right, that he has the ability to carry to carry them out, and that he has the energy to use that ability."

## BERLIN CENTER

May 24—Berlin Center schools close this week. Tuesday evening the graduation exercise of the grammar school was held and a large audience listened to the class of twelve who have finished their work in the eighth grade and will next year enter high school. Much credit is due Prof. Whitehouse for his work here, and in with pleasure, we announce that he will be with us again next year.

The statement was made in last week's paper by a Berlin Center correspondent that a 9-pound daughter had recently been born to Mr. and Mrs. E. L. Kille which was absolutely untrue. Announces His Candidacy For the Republican Nomination For Prosecuting Attorney

L. L. George, republican candidate for Prosecuting Attorney, believes it is as much the duty of the Prosecutor to protect the innocent as to convict the guilty, and that to prevent crime is a greater benefit to the community than the punishment of the offender after the crime is committed.

Mr. George was raised on the farm, and is familiar with aims, aspirations and necessities of the farming community; and when you consider that the Prosecutor is the legal adviser of the County Commissioners and the Township Trustees, why not nominate and elect the man who is in harmony and accord with your views and desires, and who believes a man should represent the country and city alike, and that neither should benefit at the expense of the other, that the official serving in office should so use that office as not to recklessly squander the money of the tax-payer.

He earnestly requests you to investigate his character, reputation and qualifications for the office of Prosecuting Attorney of Mahoning County, and vote according to the result of that investigation.—Adv.
